MASSAGE THERAPIES & BODYWORK

The healing and rejuvenating power of touch has been known since ancient times. Modern science has proven that massage reduces muscle tension, lessens stress and anxiety, and provides pain relief.

HIMALAYAN SALT STONE – 50 | 80 MIN

Known for its purity, versatility and mineral content, Himalayan Crystal Salt offers wellness for the body. This restorative massage uses warm stones to sooth sore muscles and naturally replenish the body with vital minerals, restoring balance and removing toxins.

BLUES BE GONE – 50 | 80 | 110 MIN

This warming ritual begins with a therapeutic Blue Eucalyptus inhalation to enhance immunity and re-energize the mind. Next a vigorous massage with invigorating Ginger Root Bath & Body Oil eases muscle stiffness unwinds tension and is followed by acupressure techniques.

ALPINE ARNICA DEEP TISSUE – 50 | 80 | 110 MIN

This treatment uses heat-driven muscle repair with a targeted application of arnica-rich gel and steamed towels to ease muscle pain and relax stiff joints in your back and spine. The final result is greater mobility without the soreness that sometimes follows a deep tissue treatment.

NIRVANA STRESS RELIEF – 50 | 80 | 110 MIN

This deeply revitalizing treatment uses aromatherapy and therapeutic massage to unwind the body. Choose between four aroma therapeutic blends of exotic herbs and essences designed by a clinical aroma therapist and herbalist featuring such ingredients as warm and spicy Cardamom, hypnotic Neroli blossom, clarifying Balsam Fir needles or energizing Holy Basil to re-energize the senses.

WELL & BEING SIGNATURE JOURNEY – 50 | 80 | 110 MIN

This light to medium rhythmic massage, similar to a classic Swedish massage, will lull you into a deep state of relaxation, where you focus on the therapist's touch, and delight in a delicious scalp massage using wild lime oils.

PRENATAL MASSAGE – 50 | 80 MIN

Science has shown that prenatal massage can reduce stress hormones, swollen joints and muscle pain while improving sleep. Our special pillow system is designed for the body of an expecting mother, allowing her to lie face down with full support. This experience is designed with the safety and comfort of mother and child in mind.

HOT STONE MASSAGE – 50 | 80 MIN

This gentle relaxing therapy melts away tension and eases muscle stiffness and increases circulation.

MYOFASCIAL MASSAGE – 50 MIN

This powerful treatment focuses on fascia, the tough connective tissue that surrounds, separates, and supports muscles throughout the body. Your therapist locates areas that feel tight and immobile, and using focused pressure and gentle stretching, works to release the fascia, improving mobility and reducing pain and tension.

ASHIATSU MASSAGE – 50 | 80 MIN

Ashiatsu or “foot pressure” is an ancient form of bodywork first practiced by Buddhist monks. An intense massage is performed by our therapist who will expertly manipulate muscles using their feet, while supporting themselves with bars suspended from the ceiling. With the potential use of full-body weight for pressure, this technique is perfect for the athlete or anyone who prefers deep tissue.

CRANIOSACRAL THERAPY – 50 MIN

Light touch is used to shift and correct the rhythms of the craniosacral system, located around the head, neck and spine. Your body's internal resources are replenished through this gentle hands-on method. This treatment is helpful for headaches, minor neck and back pain, and relieving stress and tension.

HEAD, HANDS & FEET FOCUS – 50 MIN

Wellness for our feel-good areas of the body. This massage focuses on overworked muscles in our hands, forearms, feet, and scalp. Our deeply relaxing treatment includes gentle exfoliation & massage on the arms, hands, lower legs, and feet including a rejuvenating scalp treatment and massage.

COUPLES MASSAGE – 50 | 80 | 110 MIN

Spend time together while enjoying your choice of side-by-side massages. Couples massage is an excellent way to introduce a reluctant partner to the wonderful world of massage, share something you both love or spend quality time with your mom, daughter or best friend.

THAI MASSAGE – 50 | 80 MIN

It is said that this ancient style of massage may have been developed by Buddha's physician nearly 2,500 years ago. Thai massage incorporates stretching and targets pressure points allowing the energy to flow. Please wear loose fitting clothing. The specially trained therapist literally use their whole body to move you into various yoga-like positions, releasing muscles, increasing range of motion and leaving you invigorated.

ENERGY BALANCE – 50 MIN

This ancient healing tradition is a gentle hands-on technique that reduces stress, eases pain and facilitates healing. Energy work does not involve manipulation of the muscles or other soft tissue and may be performed fully clothed. It energizes and balances the body, mind and spirit, helping to relax and alleviate emotional stress.

REFLEXOLOGY – 25 | 50 MIN

Reflex points in the foot relate to specific organs and glands, and stimulating those points promotes health in the organs via the body's energetic pathways. Our specially trained reflexologists restore overall health to your body by massaging the feet and reflex points, leaving you relaxed, rejuvenated and balanced. Reflexology can be performed while clothed or underneath sheets — your choice.

The Bod Pod is the world's most advanced body composition assessment. It measures the percentage of your total weight that is fat versus lean muscle tissue. Please wear tight-fitting exercise clothing or a swimsuit. Skin-tight clothing allows an accurate measurement of your body composition. Try to avoid food, drink or exercise for two hours prior to your appointment. Together, you and our fitness experts review the results of your Bod Pod and provide you with healthy recommendations in a confidential setting. – 30 MIN

The Fit Mate Pro SubMaxV02 oxygen consumption assessment provides you with a personalized report detailing maximum oxygen uptake, anaerobic threshold predictions, individual training zones, cardiovascular stamina and strength. We recommend wearing fitness attire for this short duration cardiovascular workout. – 50 MIN

The above treatments may be booked as 30-minute stand-alone services or add-on to a personal training session.

Mind your body. Embody your mind. Rich healing traditions can be found in every culture throughout the world. Fortunately, many of these traditions have become well known outside of the geographical locations where they originated due to their effectiveness in promoting health.

ACUPUNCTURE – 50 | 80 MIN

Our licensed acupuncturists use a series of fine needles to restore balance, and elevate the mind and spirit. Acupuncture relieves pain, enhances sleep, alleviates anxiety and stress, and treats acute and chronic muscular and degenerative conditions. *30-minute follow-up appointments only available upon completion of any 50/80-minute service experience.*

ACUPRESSURE – 25 | 50 MIN

Acupressure uses finger pressure rather than fine needles on specific points along the body to reduce stress, tension and alleviate aches and pains.

CUPPING – 50 MIN

In this traditional Chinese medical technique the therapist uses heat to create a vacuum in a cup, then quickly places it on the body using a gliding motion along the skin. The resulting suction moves energy, or Qi, to increase circulation, relieve pain and help reduce the appearance of cellulite. *Cupping may cause bruising.*

ACUPUNCTURE FACIAL – 80 MIN

Instantly achieve a youthful look by reducing fine lines, wrinkles and puffiness as well as increase circulation and improved facial color.
